

TESTIMONIAL

It's about having a State of Mental Calmness ... still with Intensity and Awareness.

Strategic E-magination™ is *really powerful*. It has taught me what it feels like to **hit a great shot in my mind – then execute**. I walk into the picture of that perfect shot and then make it on the course.

Deborah brings a ***real calm, confident and collected presence***. I could easily be myself and say whatever I wanted to say and it was fine. **Knowing we can work over the phone** any time and from any place is great. **It's convenient and extremely productive.**

I'm highly motivated. **I know what I've learned from Deborah works**. When I **apply the techniques Deborah taught me, I play at my best consistently.**

South Mountain Community College
2010 AA Division II National Champion

THE CLEAREDGE DIFFERENCE

**My stroke average has been 72.5. The other day I went out and shot a 66.
That's my lowest score of the year.**

I now know how to get in the **ZONE** and stay there.

- I've ***learned to prepare and practice smarter***. I used to just go out, have fun just messing around and really didn't get much done. Now I go through my whole routine and **truly prepare to hit my shots just as if I were coming down the stretch in a tournament.**
- **The Recovery Routine™** taught me I can be in **control of my emotions**. I've had a long journey of getting pretty mad during my post shot routine. That **aftermath** stuck with me through the next hole. Now **I am in control of my emotions and prepare myself for the next shot**. I know I can **execute**.
- I am **more at peace and have greater confidence with every shot.**
